Wyndham Worldwide Reports Second Quarter 2009 Results

PARSIPPANY, N.J. (July 29, 2009) — Wyndham Worldwide Corporation (NYSE:WYN) today announced results for the three months ended June 30, 2009.

SECOND QUARTER 2009 HIGHLIGHTS:

- The Company generated diluted adjusted earnings per share (EPS) of \$0.41, compared with Company-issued guidance of \$0.36 \$0.41
- The Company reaffirms full-year 2009 revenue and adjusted EBITDA guidance
- Wyndham Hotel Group's concentration in the economy and mid-scale segments led it to outperform the overall industry average domestic revenue per available room (RevPAR), posting a decline of 13.6% compared with a decline of 19.5%, as reported by Smith Travel Research
- Group RCI adjusted EBITDA, excluding the net effect of foreign currency impacts, increased 30%
- Volume per guest (VPG) at Wyndham Vacation Ownership increased 17%, reflecting strong pricing and higher close rates
- In May 2009, the Company successfully completed \$480 million of debt issuances maturing in 2012 and 2014; increasing available capacity on its revolving credit facility to approximately \$840 million as of June 30, 2009

"Wyndham Worldwide delivered strong second quarter results," said Stephen P. Holmes, chairman and CEO, Wyndham Worldwide. "Our diversified business model has proved to be flexible and efficient. In addition, we are well positioned to capitalize on an economic recovery."

SECOND QUARTER 2009 OPERATING RESULTS

Second quarter revenues of \$920 million declined by 19% from the prior-year period, due to continued weakness in the global lodging industry; unfavorable foreign exchange rate movements which negatively impacted the vacation exchange and rental business; and the previously announced initiative to reduce sales in the Company's vacation ownership business.

Reported net income for the second quarter of 2009 was \$71 million, or \$0.39 diluted EPS, compared with net income of \$98 million, or \$0.55 diluted EPS, for the second quarter of 2008.

Adjusted net income for the second quarter of 2009 was \$75 million, or \$0.41 diluted EPS, compared with adjusted net income of \$94 million, or \$0.53 diluted EPS, for the second quarter of 2008. Second quarter 2009 adjusted EPS excludes the after-tax impact of \$4 million in restructuring costs and legacy items. Second quarter 2008 adjusted EPS excludes the after-tax net benefit of \$4 million related to legacy items.

BUSINESS UNIT RESULTS

Lodging (Wyndham Hotel Group)

Revenues were \$174 million in the second quarter of 2009, a decline of 13% compared with the second quarter of 2008, primarily reflecting a worldwide decline in RevPAR and lower property management reimbursable revenues.

In constant currency, second quarter 2009 system-wide RevPAR decreased 14.7%, reflecting declines of 13.6% and 18.1% in domestic and international RevPAR, respectively. Including the impact of foreign currency, system-wide RevPAR declined 16.7% in the second quarter of 2009.

Second quarter 2009 EBITDA was \$50 million, a 19% decline from the second quarter of 2008, primarily driven by the decline in worldwide RevPAR and lower other franchise fees, partly offset by the timing of marketing expenses.

As of June 30, 2009, the Company's hotel system consisted of over 7,000 properties and 590,200 rooms, of which 21% were international. The development pipeline included approximately 1,000 hotels and 111,000 rooms, of which 50% were new construction and 41% were international.

Vacation Exchange and Rentals (Group RCI)

Revenues were \$280 million in the second quarter of 2009, an 11% decrease compared with the second quarter of 2008, primarily related to the impact of unfavorable foreign currency movements. In constant currency, revenues decreased only 1%, as favorability in vacation rental revenues was offset by lower ancillary revenues.

Annual dues and exchange revenues were \$112 million, relatively flat in constant currency compared with the second quarter of 2008 reflecting a 3% increase in the average number of members and a 4% decline in revenue per member. Including the impact of foreign currency, revenues declined 6% from the second quarter of 2008.

Vacation rental revenues were \$137 million, an increase of \$7 million, or 5%, in constant currency compared with the second quarter of 2008, driven by a 3% increase in the average net price per rental and a 2% increase in rental transaction volume.

Including the impact of foreign currency, revenues decreased 10% from the prior year period.

Second quarter 2009 EBITDA increased 4% to \$56 million, compared with \$54 million in the second quarter of 2008. Excluding \$2 million of restructuring costs, second quarter adjusted EBITDA was \$58 million, a 7% increase from the prior year period. Excluding a \$12 million unfavorable net effect of foreign currency, adjusted EBITDA would have increased \$16 million, or 30%, from the second quarter of 2008, reflecting cost savings.

Vacation Ownership (Wyndham Vacation Ownership)

Gross Vacation Ownership Interest (VOI) sales were \$327 million for the second quarter of 2009, a 39% decline from the second quarter of 2008. This decrease was primarily driven by the previously announced initiative to scale down our sales in response to the disjointed capital markets, which included a refocusing of sales and marketing efforts that resulted in fewer tours.

Total segment revenues were \$467 million in the second quarter of 2009, down 25% from the second quarter of 2008, primarily reflecting the previously mentioned lower tour flow. This was partially offset by a \$42 million favorable gross impact from the recognition of revenue that was previously deferred under the percentage-of-completion (POC) method of accounting and a 17% increase in VPG from the second quarter of 2008. Under the POC method of accounting for the sale of vacation ownership interests, the Company recognized \$37 million of previously deferred revenue during the second quarter of 2009, while second quarter 2008 reported revenues were reduced by \$5 million of deferred revenue.

EBITDA for the second quarter of 2009 was \$107 million, down 4% from the second quarter of 2008, reflecting a \$20 million impact from the net increase in the recognition of revenue previously deferred under the POC method of accounting, offset by the net impact of the planned reduction of VOI sales volume. Excluding \$1 million of restructuring costs, second quarter 2009 adjusted EBITDA was \$108 million, compared to adjusted EBITDA of \$112 million in the second quarter of 2008.

Other Items

Net interest expense in the second quarter of 2009 was \$24 million, a \$9 million increase from the second quarter of 2008 due to higher interest rates, primarily reflecting the impact of the long-term debt issuances in May 2009, the proceeds of which were used to reduce revolving credit facility borrowings, and lower capitalized interest. Depreciation and amortization declined \$1 million year-over-year to \$45 million in the second quarter of 2009.

Balance Sheet Information as of June 30, 2009:

- Cash and cash equivalents of approximately \$175 million compared with \$135 million from December 31, 2008
- Vacation ownership contract receivables, net, of \$3.1 billion compared with \$3.3 billion at December 31, 2008

- Vacation ownership and other inventory of approximately \$1.3 billion unchanged from December 31, 2008
- Securitized vacation ownership debt of \$1.6 billion compared with \$1.8 billion at December 31, 2008
- Other debt of \$1.9 billion, compared with \$2.0 billion at December 31, 2008; remaining borrowing capacity on revolving credit facility was approximately \$840 million compared with approximately \$290 million as of December 31, 2008

A schedule of debt is included in the financial tables section of this press release.

Guidance

For the third quarter of 2009, the Company expects adjusted EPS of \$0.53 — \$0.57, based on weighted average shares of 182 million.

The Company reaffirms full-year 2009 guidance:

- Revenues of \$3.5 \$3.9 billion
- Adjusted EBITDA of \$760 \$810 million

The guidance reflects assumptions used for internal planning purposes. All guidance excludes legacy items and restructuring costs, if any, which may have a positive or negative impact on reported results. If economic conditions improve or deteriorate materially from current levels, these assumptions and our guidance may change materially. It is not practicable to provide a reconciliation of forecasted adjusted EBITDA to the most directly comparable GAAP measure because certain items cannot be reasonably estimated or predicted at this time. Any such items could be significant to our financial results.

Wyndham Worldwide Corporation OPERATING RESULTS OF REPORTABLE SEGMENTS (In millions)

In addition to other measures, management evaluates the operating results of each of its reportable segments based upon net revenues and "EBITDA," which is defined as net income before depreciation and amortization, interest expense (excluding consumer financing interest), interest income (excluding consumer financing interest) and income taxes, each of which is presented on the Company's Consolidated Statements of Income. The Company believes that EBITDA is a useful measure of performance for the Company's industry segments which, when considered with GAAP measures, the Company believes gives a more complete understanding of the Company's operating performance. The Company's presentation of EBITDA may not be comparable to similarly-titled measures used by other companies.

The following tables summarize net revenues and EBITDA for reportable segments, as well as reconcile EBITDA to net income for the three and six months ended June 30, 2009 and 2008:

Positive amounts represent the recognition of previously deferred revenues.

Wyndham Worldwide Corporation OPERATING STATISTICS GLOSSARY OF TERMS

Lodging

Number of Rooms: Represents the number of rooms at lodging properties at the end of the period which are either (i) under franchise and/or management agreements, (ii) properties affiliated with Wyndham Hotels and Resorts brand for which we receive a fee for reservation and/or other services provided or (iii) properties managed under the CHI Limited joint venture.

Average Occupancy Rate: Represents the percentage of available rooms occupied during the period.

Average Daily Rate (ADR): Represents the average rate charged for renting a lodging room for one day.

RevPAR: Represents revenue per available room and is calculated by multiplying average occupancy rate by ADR. Comparable RevPAR represents RevPAR of hotels which are included in both periods.

Royalty, Marketing and Reservation Revenues: Royalty, marketing and reservation revenues are typically based on a percentage of the gross room revenues of each hotel. Royalty revenue is generally a fee charged to each franchised or managed hotel for the use of one of our trade names, while marketing and reservation revenues are fees that we collect and are contractually obligated to spend to support marketing and reservation activities. Marketing and reservation fees are also included in Table 4 within Marketing, Reservation and Wyndham Rewards Revenues.

Vacation Exchange and Rentals

<u>Average Number of Members:</u> Represents members in our vacation exchange programs who pay annual membership dues. For additional fees, such participants are entitled to exchange intervals for intervals at other properties affiliated with our vacation exchange business. In addition, certain participants may exchange intervals for other leisure-related products and services.

Annual Dues and Exchange Revenue Per Member; Represents total revenues from annual membership dues and exchange fees generated for the period divided by the average number of vacation exchange members during the year.

<u>Vacation Rental Transactions:</u> Represents the number of transactions that are generated in connection with customers booking their vacation rental stays through us. In our European vacation rentals businesses, one rental transaction is recorded each time a standard one-week rental is booked; however, in the United States, one rental transaction is recorded each time a vacation rental stay is booked, regardless of whether it is less than or more than one week.

Average Net Price Per Vacation Rental: Represents the net rental price generated from renting vacation properties to customers divided by the number of rental transactions.

Vacation Ownership

Gross Vacation Ownership Interest Sales: Represents gross sales of vacation ownership interests (including tele-sales upgrades, which are a component of upgrade sales) before deferred sales and loan loss provisions.

Tours: Represents the number of tours taken by guests in our efforts to sell vacation ownership interests.

<u>Volume per Guest (VPG)</u>: Represents revenue per guest and is calculated by dividing the gross vacation ownership interest sales, excluding tele-sales upgrades, which are a component of upgrade sales, by the number of tours.

General

Constant Currency: Represents comparison eliminating the effects of foreign exchange rate fluctuations between periods.

- (a) Represents (i) a 364-day, non-recourse vacation ownership bank conduit facility with a term through November 2009 and borrowing capacity of \$943 million and (ii) the outstanding balance of the Company's prior bank conduit facility that ceased operating as a revolving facility as of October 29, 2008 and will amortize in accordance with its terms, which is expected to be approximately two years. At June 30, 2009, our 364-day facility has remaining borrowing capacity of \$653 million.
- (b) This debt is collateralized by \$2,890 million, \$2,981 million, \$2,906 million, \$2,721 million and \$2,723 million of underlying vacation ownership contract receivables and related assets at June 30, 2009, March 31, 2009, December 31, 2008, September 30, 2008 and June 30, 2008, respectively.
- (c) The balance at June 30, 2009 represents \$800 million aggregate principal less \$3 million of unamortized discount.
- (d) The Company's revolving credit facility has a borrowing capacity of \$900 million. At June 30, 2009, the Company has \$29 million of outstanding letters of credit and a remaining borrowing capacity of \$841 million. The decrease in balance from March 31, 2009 to June 30, 2009 is primarily due to the Company's utilization of proceeds from the issuance of its 9.875% senior unsecured notes and 3.50% convertible notes during May 2009.
- (e) Represents senior unsecured notes issued by the Company during May 2009. The balance at June 30, 2009 represents \$250 million aggregate principal less \$13 million of unamortized discount.
- (f) Represents cash convertible notes issued by the Company during May 2009. Such balance includes \$184 million of debt (\$230 million aggregate principal less \$46 million of unamortized discount) and a liability with a fair value of \$69 million related to a bifurcated conversion feature.
- (g) Represents a 364-day, AUD 193 million, secured, revolving foreign credit facility, which closed during June 2009 and expires in June 2010. Such facility replaces the previous secured, revolving foreign credit facility which expired in June 2009. On July 7, 2009, an additional AUD 20 million of capacity was added to this facility, increasing total capacity to AUD 213 million.
