Wyndham Worldwide Reports Strong Third Quarter 2015 Results

Increases 2015 Adjusted EPS Guidance

PARSIPPANY, N.J. (October 27, 2015) - Wyndham Worldwide Corporation (NYSE:WYN) today announced results for the three months ended September 30, 2015.

THIRD QUARTER HIGHLIGHTS:

- · Adjusted diluted earnings per share (EPS) was \$1.78, an increase of 7% from adjusted diluted EPS of \$1.67 in the third quarter of 2014. Reported diluted EPS was \$1.61, compared with \$1.64 in the third quarter of 2014.
- · Revenues for the third quarter of 2015 increased 3% compared with the third quarter of 2014. On a currency neutral basis and excluding the impact of acquisitions and a divestiture, revenues increased 6% and adjusted EBITDA increased 7%.
- · Gross vacation ownership sales increased 12% on a constant currency basis.
- · Vacation rental transactions increased 6% excluding the impact of acquisitions and a divestiture.
- · The Company repurchased 2.1 million shares of its common stock for \$170 million during the quarter.

"We delivered great results in the third quarter across all our businesses, with more guests, staying more often, and more engaged than ever," said Stephen P. Holmes, chairman and CEO. "This quarter was highlighted by a double digit increase in gross vacation ownership interest sales, strong growth in vacation rental transaction volume, and increased activity through our re-invigorated loyalty program. We are connecting the widest range of guests around the globe with the accommodation options they desire."

THIRD QUARTER 2015 OPERATING RESULTS

Third quarter revenues were \$1.6 billion, an increase of 3% from the prior year period. Excluding acquisitions and a divestiture, constant currency revenues increased 6% reflecting growth in each of the Company's business segments.

Third quarter adjusted EBITDA was \$412 million, compared with \$418 million in the prior year period. Year-over-year adjusted EBITDA comparisons were adversely affected by foreign currency effects of \$17 million in 2015, and the absence of results in 2015 from Canvas Holiday, a U.K.-based camping business, which contributed \$18 million of EBITDA in the third quarter 2014 and was divested in the fourth quarter of 2014. Excluding these items and acquisitions, adjusted EBITDA increased 7%.

Adjusted net income was \$210 million, or \$1.78 per diluted share, compared with \$210 million, or \$1.67 per diluted share for the same period in 2014. Net income and earnings per share benefited from strong operations, but were negatively affected by the same factors that influenced adjusted EBITDA comparisons, noted above. EPS also benefited from the Company's share repurchase program, which decreased the weighted average diluted share count 6% year-over-year.

Reported net income for the third quarter of 2015 was \$190 million, or \$1.61 per diluted share, compared with \$206 million, or \$1.64 per diluted share, for the third quarter of 2014. Reported net income in both periods reflects several items excluded from adjusted net income. The net result of these items unfavorably impacted third quarter 2015 net income by \$20 million and unfavorably impacted third quarter 2014 net income by \$4 million. Full reconciliations of adjusted net income to GAAP results appear in Table 8 of this press release. Year-over-year reported net income third quarter comparisons were negatively impacted by the same factors that influenced adjusted EBITDA comparisons, noted above.

Free cash flow was \$660 million for the nine months ended September 30, 2015, compared with \$750 million for the same period in 2014. The decline in free cash flow reflects the timing of capital expenditures and working capital, including inventory spending. The Company expects inventory spending in the fourth quarter of 2015 to be significantly lower than in the fourth quarter of 2014. The Company defines free cash flow as net cash provided by operating activities less capital expenditures. For the nine months ended September 30, 2015, net cash provided by operating activities was \$817 million, compared with \$899 million in the prior year period.

BUSINESS UNIT RESULTS

Lodging (Wyndham Hotel Group)

Revenues were \$357 million in the third quarter of 2015, a 13% increase compared with the third quarter 2014. Adjusted EBITDA was \$108 million, flat compared with the same period in 2014.

In constant currency and excluding acquisitions, revenues increased 4% and adjusted EBITDA increased 3%, reflecting domestic RevPAR growth, which was partially offset by increased marketing expenditures and higher costs related to the implementation of new property management and central reservation systems.

Domestic RevPAR increased 5.2%. In constant currency, total system-wide RevPAR increased 3.3%.

As of September 30, 2015, the Company's hotel system consisted of approximately 7,760 properties and 672,000 rooms, a 2.5% room increase compared with the third quarter of 2014. The development pipeline included 910 hotels and over 122,800 rooms, of which 61% were international and 68% were new construction.

Vacation Exchange and Rentals (Wyndham Exchange & Rentals)

Revenues were \$476 million in the third quarter of 2015, a 7% decline compared with the third quarter of 2014. In constant currency, and excluding acquisitions and the impact of the divestiture of Canvas Holidays in 2014, revenues increased 6%.

Exchange revenues were \$157 million, down 3% compared with the third quarter of 2014. In constant currency, exchange revenues were up 1% compared with the prior year, as the average number of members increased 1.5% while exchange revenue per member was flat.

Vacation rental revenues were \$296 million, an 11% decrease compared with the third quarter of 2014. In constant currency and excluding the impact of acquisitions and the divestiture, vacation rental revenues were up 8%, reflecting a 5.8% increase in transaction volume, and a 1.7% increase in average net price per vacation rental.

Adjusted EBITDA for the third quarter of 2015 was \$137 million, a 14% decrease compared with the third quarter of 2014. On a currency neutral basis and excluding the impact of acquisitions and the divestiture, adjusted EBITDA increased 5% compared with the prior year period.

Vacation Ownership (Wyndham Vacation Ownership)

Revenues were \$750 million in the third quarter of 2015, a 7% increase over the third quarter of 2014. In constant currency, revenues increased 8%.

Gross VOI sales were \$565 million in the third quarter of 2015, an increase of 10% compared with the third quarter of 2014. In constant currency, Gross VOI sales increased 12%. Volume per guest (VPG) for the quarter increased 10.6% in constant currency while tour flow increased 0.9%. VPG increases were driven primarily by a higher average transaction size.

Adjusted EBITDA for the third quarter of 2015 was \$201 million, an increase of 7% compared with the third quarter of 2014. Results primarily reflect higher VPG. On a currency neutral basis adjusted EBITDA increased 9%.

Wyndham Worldwide Corporation OPERATING RESULTS OF REPORTABLE SEGMENTS (In millions)

In addition to other measures, management evaluates the operating results of each of its reportable segments based upon net revenues and "EBITDA", which is defined as net income before depreciation and amortization, interest expense (excluding consumer financing interest), early extinguishment of debt, interest income (excluding consumer financing revenues) and income taxes, each of which is presented on the Company's Consolidated Statements of Income. The Company believes that EBITDA is a useful measure of performance for the Company's segments which when considered with GAAP measures, gives a more complete understanding of its operating performance. The Company's presentation of EBITDA may not be comparable to similarly-titled measures used by other companies.

The following tables summarize net revenues and EBITDA for the Company's reportable segments, as well as reconcile EBITDA to Net income for the three months ended September 30, 2015 and 2014:

Wyndham Worldwide Corporation OPERATING STATISTICS

GLOSSARY OF TERMS

Lodging

Number of Rooms: Represents the number of rooms at lodging properties at the end of the period which are either (i) under franchise and/or management agreements, or company owned and (ii) properties under affiliation agreements for which the Company receives a fee for reservation and/or other services provided.

Average Occupancy Rate: Represents the percentage of available rooms occupied during the period.

Average Daily Rate (ADR): Represents the average rate charged for renting a lodging room for one day.

RevPAR: Represents revenue per available room and is calculated by multiplying average occupancy rate by ADR. Comparable RevPAR represents RevPAR of hotels which are included in both periods.

Vacation Exchange and Rentals

Average Number of Members: Represents members in our vacation exchange programs who paid annual membership dues as of the end of the period or who are within the allowed grace period. For additional fees, such participants are entitled to exchange intervals for intervals at other properties affiliated with the Company's vacation exchange business. In addition, certain participants may exchange intervals for other leisure-related services and products.

Exchange Revenue Per Member: Represents total annualized revenues generated from fees associated with memberships, exchange transactions, member-related rentals and other servicing for the period divided by the average number of vacation exchange members during the period.

<u>Vacation Rental Transactions:</u> Represents the number of transactions that are generated during the period in connection with customers booking their vacation rental stays through the Company. One rental transaction is recorded for each standard one-week rental.

Average Net Price Per Vacation Rental: Represents the net rental price generated from renting vacation properties to customers and other related rental servicing fees during the period divided by the number of vacation rental transactions during the period.

Vacation Ownership

Gross Vacation Ownership Interest Sales: Represents sales of vacation ownership interest (VOIs), including WAAM sales, before the net effect of percentage-of-completion accounting and loan loss provisions. See Table 9 for a reconciliation of Gross VOI sales to vacation ownership interest sales.

Tours: Represents the number of tours taken by guests in our efforts to sell VOIs.

<u>Volume per Guest (VPG):</u> Represents Gross VOI sales (excluding tele-sales upgrades, which are non-tour upgrade sales) divided by the number of tours. The Company has excluded non-tour upgrade sales in the calculation of VPG because non-tour upgrade sales are generated by a different marketing channel. See Table 9 for a detail of tele-sales upgrades for 2012-2015.

General

Constant Currency: Represents a comparison eliminating the effects of foreign exchange rate fluctuations between periods (foreign currency translation).

<u>Currency-Neutral:</u> Represents a comparison eliminating the effects of foreign exchange rate fluctuations between periods (foreign currency translation) and the impact caused by any foreign exchange related activities (i.e., hedges, balance sheet remeasurements and/or adjustments).

Wyndham Worldwide Corporation NON-GAAP RECONCILIATIONS AND FINANCIAL INFORMATION (In millions)

FREE CASH FLOW

We define free cash flow to be net cash provided by operating activities less property and equipment additions which we also refer to as capital expenditures.

We believe free cash flow to be a useful operating performance measure to evaluate the ability of our operations to generate cash for uses other than capital expenditures and, after debt service and other obligations, our ability to grow our business through acquisitions, development advances and equity investments, as well as our ability to return cash to shareholders through dividends and share repurchases. A limitation of using free cash flow versus the GAAP measure of net cash provided by operating activities, net cash used in investing activities and net cash used in financing activities as a means for evaluating Wyndham Worldwide is that free cash flow does not represent the total cash movement for the period as detailed in the consolidated statement of cash flows.

The following table provides more details on the GAAP financial measure that is most directly comparable to the non-GAAP financial measure and the related reconciliation between these financial measures:
